

Darin Petty was kind enough to give us a run down on his experiments with no / low alcohol beer brewing during our February 2022 Club Member meeting. Although he didn't have a formal document right now, he shared the following links with some comments for those who might be interested in delving into it.

<https://brulosophy.com/2021/11/11/the-brewing-of-non-alcoholic-and-ultralow-alcohol-beer-methods-made-simple/>  
best one

<https://ultralowbrewing.com/>  
didn't read this, but looks interesting

<https://www.btobeer.com/images/techniques/levures/micro-bieres/lallemand-bestpractices-low-alcohol-beer.pdf>  
special yeast  
mash temp 180-187!

<https://www.homebrewtalk.com>  
search for "how I neutered my beer"  
<https://www.homebrewtalk.com/threads/creating-an-na-or-how-i-neutered-my-beer.39433/>

<https://byo.com/article/brew-a-great-non-alcoholic-beer/>  
Simple writeup, but seems off in several respects - too simplistic.

<https://renegadebrewing.com/how-to-make-non-alcoholic-beer/>  
also simplistic
